

# Kanishk Singh

*Humanitarian Engineering Research Assistant*

Dahdaleh Institute for Global Health Research 2019/2020

# I did...

1. Carried out a scoping review (web search/survey) of existing educational, research, and training programs in the area of Humanitarian Engineering including definitions, program goals, curricula, and fees
2. Developed a database of key organizations and potential informants working in the area of interest
3. Performed clerical and administrative duties relating to the development of a short course

# I learned...

1. The process of developing a course about emergency response and different elements that are required
2. How Humanitarian Engineering projects work
3. Different areas of Global Health, particularly medicine and technology

# I plan to...

1. Use the knowledge and experience I have gained to apply to positions centered around Sustainable Engineering.
2. Apply for positions at organizations within the United Nations
3. Look into Master programs
